

Mark Stevens

Frontend Developer | info@websouldesign.com | Khunda

Professional Summary

Dynamic Frontend Developer with 4 years of experience in designing, developing, and deploying high-performance web applications. Expert in leveraging React, Next.js, and TypeScript to create seamless user experiences. Proven track record of improving application performance and implementing scalable design systems within Agile environments. Passionate about bridging the gap between sophisticated design and robust technical implementation.

Technical Skills

Languages

JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass

Frameworks

React, Next.js, Redux, Redux Toolkit, Node.js, Express

Tools & Cloud

Git, GitHub, Docker, MongoDB, Vercel, Firebase

Methodologies

Agile, Scrum, Test-Driven Development (TDD), RESTful API Design

Professional Experience

Senior Frontend Engineer

TechFlow Solutions | Place

14 May 2026 – Present

- Spearheaded the development of a high-traffic e-commerce platform using Next.js and Redux, resulting in a 35% reduction in page load times and a 20% increase in user retention.
- Architected and maintained a comprehensive internal UI component library using React and Storybook, ensuring brand consistency across four separate product lines.
- Mentored junior developers through code reviews and technical workshops, fostering a culture of clean code and optimized performance.
- Collaborated closely with UX/UI designers to translate complex Figma wireframes into responsive, accessible, and interactive frontend features.

Frontend Developer

Innovate Digital | Place

22 May 2026 – 14 May 2026

- Developed and deployed 10+ responsive single-page applications (SPAs) for diverse clients utilizing React and TypeScript.
- Integrated complex RESTful APIs and optimized data fetching strategies, reducing server-side latency by 15%.
- Refactored legacy CSS codebases into modern SCSS modules, improving maintainability and reducing the overall bundle size by 12%.
- Participated in daily Scrum meetings and sprint planning, consistently delivering features ahead of schedule.

Projects

OpenSource Dashboard Initiative

- Developed a real-time data visualization dashboard using React and D3.js.
- Implemented secure user authentication and data persistence using MongoDB and Express.

Education

Bachelor of Science in Computer Science
